T : Pledget teflon / Teflon Pledget

Présentation roue mousse / Foam wheel packaging
Boîte de 12 unités / Box of 12 units

Présentation roue mousse + aiguille fine / Foam wheel packaging + slim needle
Boîte de 12 unités / Box of 12 units

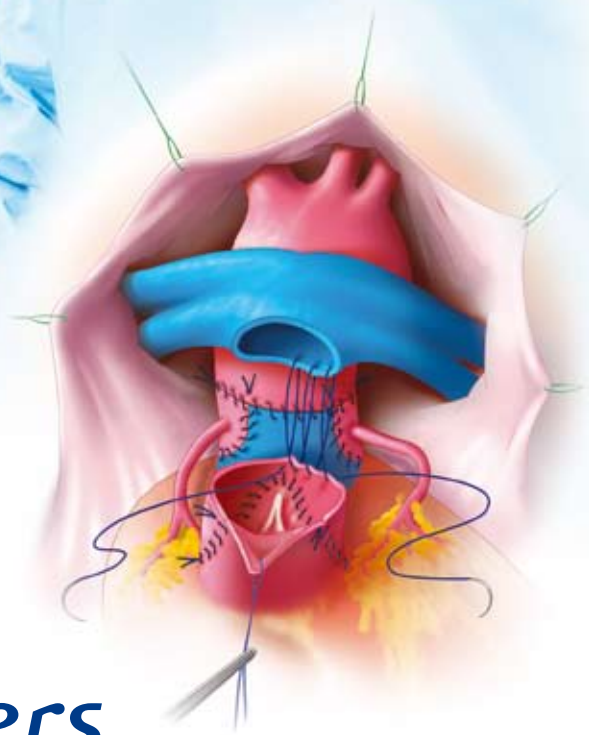

Aiguille fine / Slim needle

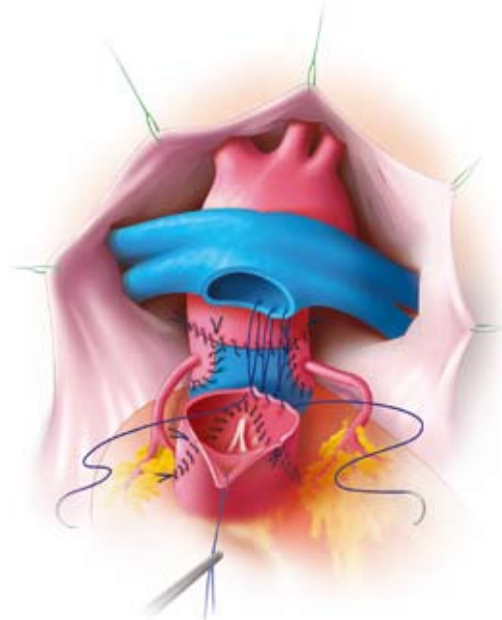

La suture pédiatrique en toute sécurité
Designed for cardiopediatric and vascular surgery

PREMIO® PREMIO

Monofil de PVDF / PVDF monofilament

 **Péters**
SURGICAL

FIL / THREAD

Stabilité incomparable Superior stability

- Sécurité maximale à long terme
- Biocompatibilité exemplaire
- Long term security
- High biocompatibility

Elasticité idéale et mémoire minimale Exceptionnal elasticity and minimal memory

- Croissance tissulaire respectée
- Grand confort d'utilisation
- Traumatisme tissulaire infime
- Enhances tissue growth
- Easy handling
- Minimal tissue trauma

Extrême solidité / Extreme strength

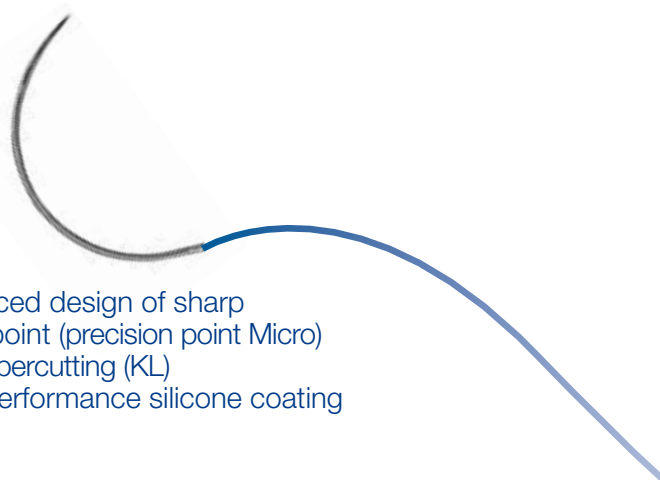

- Résistance élevée à la traction
- Excellente tenue aux noeuds
- Substantial tensile strength
- Excellent knot holding

AIGUILLE / NEEDLE

Excellente pénétration tissulaire Excellent tissue penetration

- Géométrie élaborée des pointes de précision Rondes Micro (Taper) et KL (Tapercutting)
- Siliconage haute performance
- Enhanced design of sharp taper point (precision point Micro) and Tapercutting (KL)
- High performance silicone coating

Solidité / Resistance

- Acier inoxydable de haute technologie combinant résistance à la flexion et ductilité
- Refined stainless steel alloy for increased tensile strength and ductility

PREMIO® PREMIO

Monofil de PVDF / Polypropylene monofilament

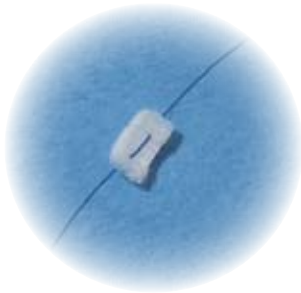

PRÉSENTATION PACKAGING

Nouvelle présentation Onepak®
New Onepak® packaging

- Identification rapide
- Facilité d'accès aux aiguilles
- Convenient and quick identification
- Easy needle access

PLEDGETS / PLEDGETS

- Pledget Weavenit® très souple, idéal pour la chirurgie pédiatrique
- Choix de matériaux et de dimensions pour toutes les applications
- Very soft Weavenit® pledget, especially for pediatric surgery
- Options for materials and dimensions are available for multiple procedures

INDICATIONS INDICATIONS

- Chirurgie cardio pédiatrique et néonatale
Transposition des gros vaisseaux
Fermeture des cavités cardiaques
- Chirurgie vasculaire
- Chirurgie cardiaque
- Cardiopediatric and neonatal surgery
Transposition of the great arteries
Closure of cardiac cavities
- Vascular surgery
- Cardiac surgery
